

SERVICE PROVIDERS OFFERING MHCP CONSULTANT SERVICES

The Management of Hazardous Chemicals Programme(MHCP) is to establish and implement a comprehensive programme to manage hazardous chemicals at the workplace. The objective of the programme is to ensure safe use of hazardous chemicals, prevent accidents or exposure incidents involving hazardous chemicals, and minimise the consequences should such an accident or incident occur.

The MHCP Gap Analysis checklist is a systematic approach to identify the current gaps in the MHCP implemented by each company. The checklist may be performed by a competent person or a MHCP consultant, however they would need to have competency in MHCP as well as control solutions.

The list below is for reference only and inclusion of companies in it does not in any way imply recommendation, endorsement or warranty of any kind whatsoever on the part of the Ministry of their products/services. It is not exhaustive and will be updated from time to time.
